

DO YOU HAVE A GOAL OF ACHIEVING LEADERSHIP STATUS IN YOUR CDP DISCLOSURE? ADEC INNOVATIONS (ADEC) CAN HELP.

A 'Leadership' score represents that you have achieved the highest level of disclosure and performance indicators, and that you are recognized as a global leader in climate change management, a distinction highly valued by customers, investors and other stakeholders. Organizations reaching this level often do so by developing plans and strategies years in advance.

With our Road to Leadership service, ADEC reviews your previous CDP disclosures, applies our unique insight and expertise in CDP's scoring methodology* and helps you map out your customized Road to Leadership, including the important milestones:

- **Set emission reduction targets**
- **Implement emission reduction activities**
- **Augment boundaries and data sets**
- **Improve Scope 1, Scope 2 and Scope 3 calculations**
- **Achieve emissions reduction goals**

Together, we'll assign timelines for each step to measure your progress.

THE ADEC ADVANTAGE

ADEC develops a written report detailing specific actions for your organization:

- Target setting
- Risk mitigation
- Capitalizing on opportunities
- Measurement of emissions outside your direct control
- Tracking and managing emissions reductions
- Data verification

We'll walk you through the entire plan in detail. In addition to providing the guidelines, ADEC helps you implement the next steps in your organization. By planning ahead, you'll navigate a clear path on your Road to Leadership.

*In accordance with CDP's conflict of interest policy, ADEC does not provide official scoring services for any of our CDP consulting clients.
