

As a CDP Gold Consulting Partner, ADEC Innovations has scored 21,000+ responses since 2011 and has unique experience in the scoring methodology. We help you maximize your CDP disclosure and provide you with a detailed, customized road map for improvement.

In addition to providing scoring services for the CDP Supply Chain and Investor programs, ADEC Innovations also provides scoring services for the S&P 500 and FTSE 350.

## Maximize your sustainability programs and CDP score.

ADEC Innovations is proud to have collaborated with our global clients to improve their performance and develop plans for long-term sustainability initiatives.

"ADEC Innovations provided a quick and efficient service...As ADEC Innovations is an accredited partner of CDP, we feel confident with their advice and experience."

**-Madeleine Cobb, Sustainability Executive, Virgin Atlantic**

"Working with ADEC Innovations has exceeded every expectation we had. While we expected them to help us establish our initial environmental sustainability program, we did not anticipate how quickly ADEC would achieve incremental, measurable results."

**-Theresa Mathews, Cavium, Inc.**

"Having worked with ADEC Innovations for over two years now, we've seen improvement in our management and reporting of climate change risk and opportunities. During 2016, we were challenged with the new CDP Climate Change methodology. Through ADEC Innovations' detailed understanding of the new methodology, we were efficiently guided through all new data and reporting requirements. Specifically, their quality checks of our calculations and pre-scoring assessment services were highly valued. I've particularly welcomed their professionalism, expertise, and ability to keep us to timelines - all in all, great value."

**-Technology, Media and Telecommunications Sector Client**

"We realize that to progress, we need to measure. Our consultation with ADEC Innovations reinforced our need to better communicate the risks and opportunities facing SWM International. In addition, ADEC Innovations provided unique insight into how SWM International compared to other suppliers."

**-Juliette Audren, Sustainability Program Manager, SWM International**

"We have worked with ADEC Innovations over multiple reporting seasons, and they have always provided us with fast, friendly, and expert service. Their precise and detailed recommendations have enabled us to maximize our CDP Climate Change and Water scores, and their insights have been invaluable in helping us better understand the methodology and given us clear direction on how to improve our response and sustainability efforts. We know that if we have any questions regarding CDP and its technical analyses, we can turn to ADEC Innovations for the answers."

**-Cindy M. Bush, Director, Environmental Health & Safety, Tessy Plastics Corp.**

\* In accordance with CDP's conflict of interest policy, ADEC Innovations does not provide official scoring services for any of our CDP consulting clients.
